

Management Summary: Actions & Obligations

organise audits, delegate obligations,
ensure legal compliance

Comply with all applicable provisions (legal compliance) and internal rules (corporate compliance) and organise action management system.

Challenges in the management of actions and obligations

lack of overview of regulations
and the legal situation, including
amendments

high level of organisation
required for audits and
certifications

lack of data as basis for the
organisation and implementation
of measures

unclear responsibilities
with incomplete delegation
of duties

Your tools for comprehensive management of actions and obligations:

- + legal database for all regulations and obligations
- + actions library for occupational health and safety
- + compliance scorecard for the delegation of obligations
- + reporting system for audits and certifications

There are so many tasks and processes, you need a digital solution that adapts to your company's individual circumstances and involves all employee groups.

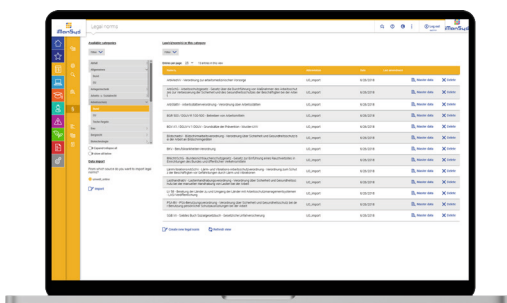

Management of actions and obligations with iManSys

*individual connection
to legal databases and
clear delegation of
obligations*

*simple organisation of
audits through the
use of checklists and
comprehensive action
management*

"If you think compliance is expensive – try non-compliance."

– Paul McNulty, US lawyer

The expression bundles all the measures taken by a company to comply with both legal and internal company rules and principles. The management bears the responsibility for the supervision and control of all compliance activities. This requires a sustainable HSQE compliance management system.

Health

Safety

Quality

Environment

The HSQE software solution **iManSys** supports you in all meeting all requirements relating to healthcare, occupational safety, quality and environmental management!

For more sustainability in the working world: safe, simple, effective!

- ✓ **Legal compliance.** Using the HSQE software solution **iManSys** helps you ensure compliance with all applicable guidelines, regulations and obligations.
