

Management Summary: Occupational Medicine & Health Care

aptitude tests, organise obligatory, optional and recommended healthcare

Organise workplace and occupation-related healthcare with clear deadline monitoring, date administration and comprehensive healthcare reporting.

Challenges in health management

complex organisation and coordination of healthcare services and check-ups

poor communication of health care options to the employees

complicated monitoring of deadlines and recording of additional and follow-up appointments

lack of healthcare reporting to measure success in health management

Your efficient tools for seamless health management:

- + documentation without recording health data
- + offer letter for health care communication

- + health care overview with status display
- + appointment planner with deadline monitoring

There are so many tasks and processes, you need a digital solution that adapts to your company's individual circumstances and involves all employee groups.

clear schedule display with selected users and healthcare check-ups

complete user overview with status display of all healthcare appointments incl. filter functions

"If you think compliance is expensive – try non-compliance."

– Paul McNulty, US lawyer

The expression bundles all the measures taken by a company to comply with both legal and internal company rules and principles. The management bears the responsibility for the supervision and control of all compliance activities. This requires a sustainable HSQE compliance management system.

Health
